

Serving Milk in the CACFP

Use the information below to see what kind of milk to serve in the Child and Adult Care Program (CACFP) to those in your care.

Newborn through 11 months old

- ✓ Breastmilk
- ✓ Iron-fortified formula

Breastmilk is allowed at any age in the CACFP.

12 months through 23 months *(1 year through 1 year and 11 months)*

- ✓ Unflavored whole milk

Iron-fortified formula may be served to children between the ages of 12 months to 13 months to help with the transition to whole milk.

2 years through 5 years *(up to 6th birthday)*

- ✓ Unflavored fat-free (skim) milk
- ✓ Unflavored low-fat (1%) milk

Unflavored whole milk and unflavored reduced-fat (2%) milk may be served to children between the ages of 24 and 25 months to help with the transition to fat-free (skim) or low-fat (1%) milk.

6 through 12 years, 13 through 18 years, and adults

- ✓ Unflavored fat-free (skim) milk
- ✓ Flavored fat-free (skim) milk
- ✓ Unflavored low-fat (1%) milk
- ✓ Flavored low-fat (1%) milk*

Non-dairy beverages may be served in place of cow's milk when a participant has a special dietary need. Please contact your Sponsoring Organization or State agency for more information.

For Adult Participants:

Yogurt may be served in place of milk once per day.

A serving of milk is optional at supper.

The Facts on Flavored Milk:

Flavored milk cannot be part of a reimbursable meal or snack for children 5 years old and younger.

Homemade flavored milk made by adding flavored straws, syrups, and powders to unflavored milk also cannot be part of a reimbursable meal or snack for children 5 years old and younger.

Flavored milk served to children 6 years old and older and to adults must be fat-free (skim) or low-fat (1%).

**Flavored low-fat (1%) milk is allowed for children ages 6 and older and adults in the CACFP from July 1, 2018, until June 30, 2019, and is subject for updates pending Final Rule for Child Nutrition Programs: Flexibilities for Milk, Whole Grains, and Sodium Requirements.*

Try It Out!

Milk Matters!

Use the information on the front of the page to answer the questions below.

1. Maya is a 1-year-old at your family child care home and eats lunch at the same time as Darrick, who is 2 years old. What type(s) of milk may you serve each child?

Maya's Age:

Type(s) of Milk:

Darrick's Age:

Type(s) of Milk:

2. Olivia is a 5½-year-old who attends your family child care home. What kind(s) of milk may you serve her in the CACFP?

Olivia's Age:

Types of Milk:

3. At your adult day care center, you want to serve yogurt at breakfast and again that same day, during lunch. Both times, yogurt would be served in place of milk. Is this allowed? Why or why not?

Answer Key:

1. **Maya's age:** 1 year. **Type(s) of Milk:** Because Maya is 1 year old, she can only be served unflavored whole milk in the CACFP. If she is younger than 1 year and 1 month (13 months), she can also be served iron-fortified formula. There is a 1-month transition period to help children adjust to whole milk between the ages of 12 months and 13 months.

Darrick's age: 2 years. **Type(s) of Milk:** Because Darrick is 2 years old, he can be served unflavored fat-free (skim) milk or unflavored low-fat (1%) milk. If he is younger than 2 years 1 month (25 months), he can also be served unflavored whole milk, and unflavored reduced-fat (2%) milk. There is a 1-month transition period when the child turns 2 to help him or her adjust from whole milk to fat-free (skim) or low-fat (1%) milk.

2. **Olivia's Age:** 5 ½ years. **Type(s) of milk:** Because Olivia falls into the 2- through 5-year-old age group, she can be served unflavored fat-free (skim) milk and unflavored low-fat (1%) milk.

3. No, you are not allowed to serve yogurt instead of milk at breakfast AND at lunch. You are only allowed to serve yogurt instead of milk at one meal per day at adult day care centers. If you are serving yogurt as the meat/meat alternate, you may not serve yogurt as the milk substitute at the same meal.
